

Dear Valued Patients,

In 2021, Texoma ENT & Allergy joined a wider network of nationally recognized ENT clinics across the country. While becoming part of this network, we deliberately retained our name to reflect our commitment to preserving the high standard of care our community knows and trusts, something we are proud to have continued to uphold.

To better align with that relationship and demonstrate our association with our partners, we are now changing our name to **The Centers for Advanced ENT Care: Texoma**.

This change reflects our continued collaboration with leading ENT practices across the country in order to bring shared knowledge, innovation, and resources to better serve you. What's not changing is what matters most: your care experience, your appointments, your patient portal, and our website and contact information all remain the same.

Our board-certified ENT physicians, along with our full care team, will continue to be your trusted provider in Wichita Falls and surrounding communities for all your family's ENT, allergy, and hearing needs.

You may start to notice our new name on our website, in your portal, and on patient statements or other correspondence in the near future. If you ever have questions about communication you've received from us, please don't hesitate to call our office.

Thank you for trusting us with your care. We're honored to continue our mission of improving your quality of life through compassionate, comprehensive, and transformative ENT care.

Sincerely,

Jed Grisel, MD
Terrell Bibb, MD

Barry Prestridge, MD
Jerry Giles, MD

Cameron Godfrey, MD
Melanie Lerew, MD
